# About

Eleganza e innovazione, tradizione e nuove sfide. Storica firma del tessile, da oltre un secolo sinonimo di ricercatezza nello stile e preziosità della fattura, Limonta firma la sua prima collezione di carte da parati di design. Le visioni più innovative dei grafici si ibridano con la secolare tradizione artigiana dell'azienda in un prodotto unico, che con le sue nuove creazioni perpetua e rinnova una tradizione di stile iniziata nel 1893.

Esaltazione del made in Italy che sa aprirsi a influenze e suggestioni internazionali, la collezione Limonta propone visioni suggestive, interpretazioni visionarie e iconiche del reale, in grado di restituire agli spazi la propria capacità di narrazione. Minimali, geometliche e ordinate, lisergiche e di forte impatto, evocative o materiche, le nuove carte sono un invito a guardare oltre la superficie, interrogandola e interpretandola, oltre i limiti del reale.

*Elegance, innovation, tradition and new challenges. Limonta, historic brand in the textile industry, symbol of fine quality and style for over a century, introduces its first collection of design wallpapers. The most innovative graphic concepts combine with the brand's ancient artisanal techniques, to create a unique product capable of preserving and reinterpreting at the same time the tale started by Limonta in 1893.*

*Emphasis of the Italian style and its capability to embrace international influences and inspirations, the collection by Limonta provides evocative concepts with a visionary, iconic interpretation of reality that re-establishes the storytelling role of space. Minimal, geometrical and neat, psychedelic making a strong visual impact, evocative or materic, the new wallpapers invite you to investigate and reinterpret the surface, beyond the boundaries of reality.*

THEME #1

# Geometrie

Estetica minimale, ma di forte impatto visivo. Forme e tratti essenziali si replicano in pattern ordinati e ipnotici che giocano con la luce, simulano volumi ed evocano materia. In equilibrio perfetto su cromie complementari o toni a contrasto, trasformano la semplicità in essenza.

Il disegno – pulito, lineare – si fa mappa e percorso geometrico in grado di valorizzare spazi e arredo, esaltati dalla riproposizione seriale di elementi grafici.

*Minimal but of great visual impact. Essential shapes and lines replicating themselves in neat, hypnotic patterns playing with light, simulating volumes and evoking matter. Perfect balance of complementary colors or shades in contrast, simplicity becoming life essence.*

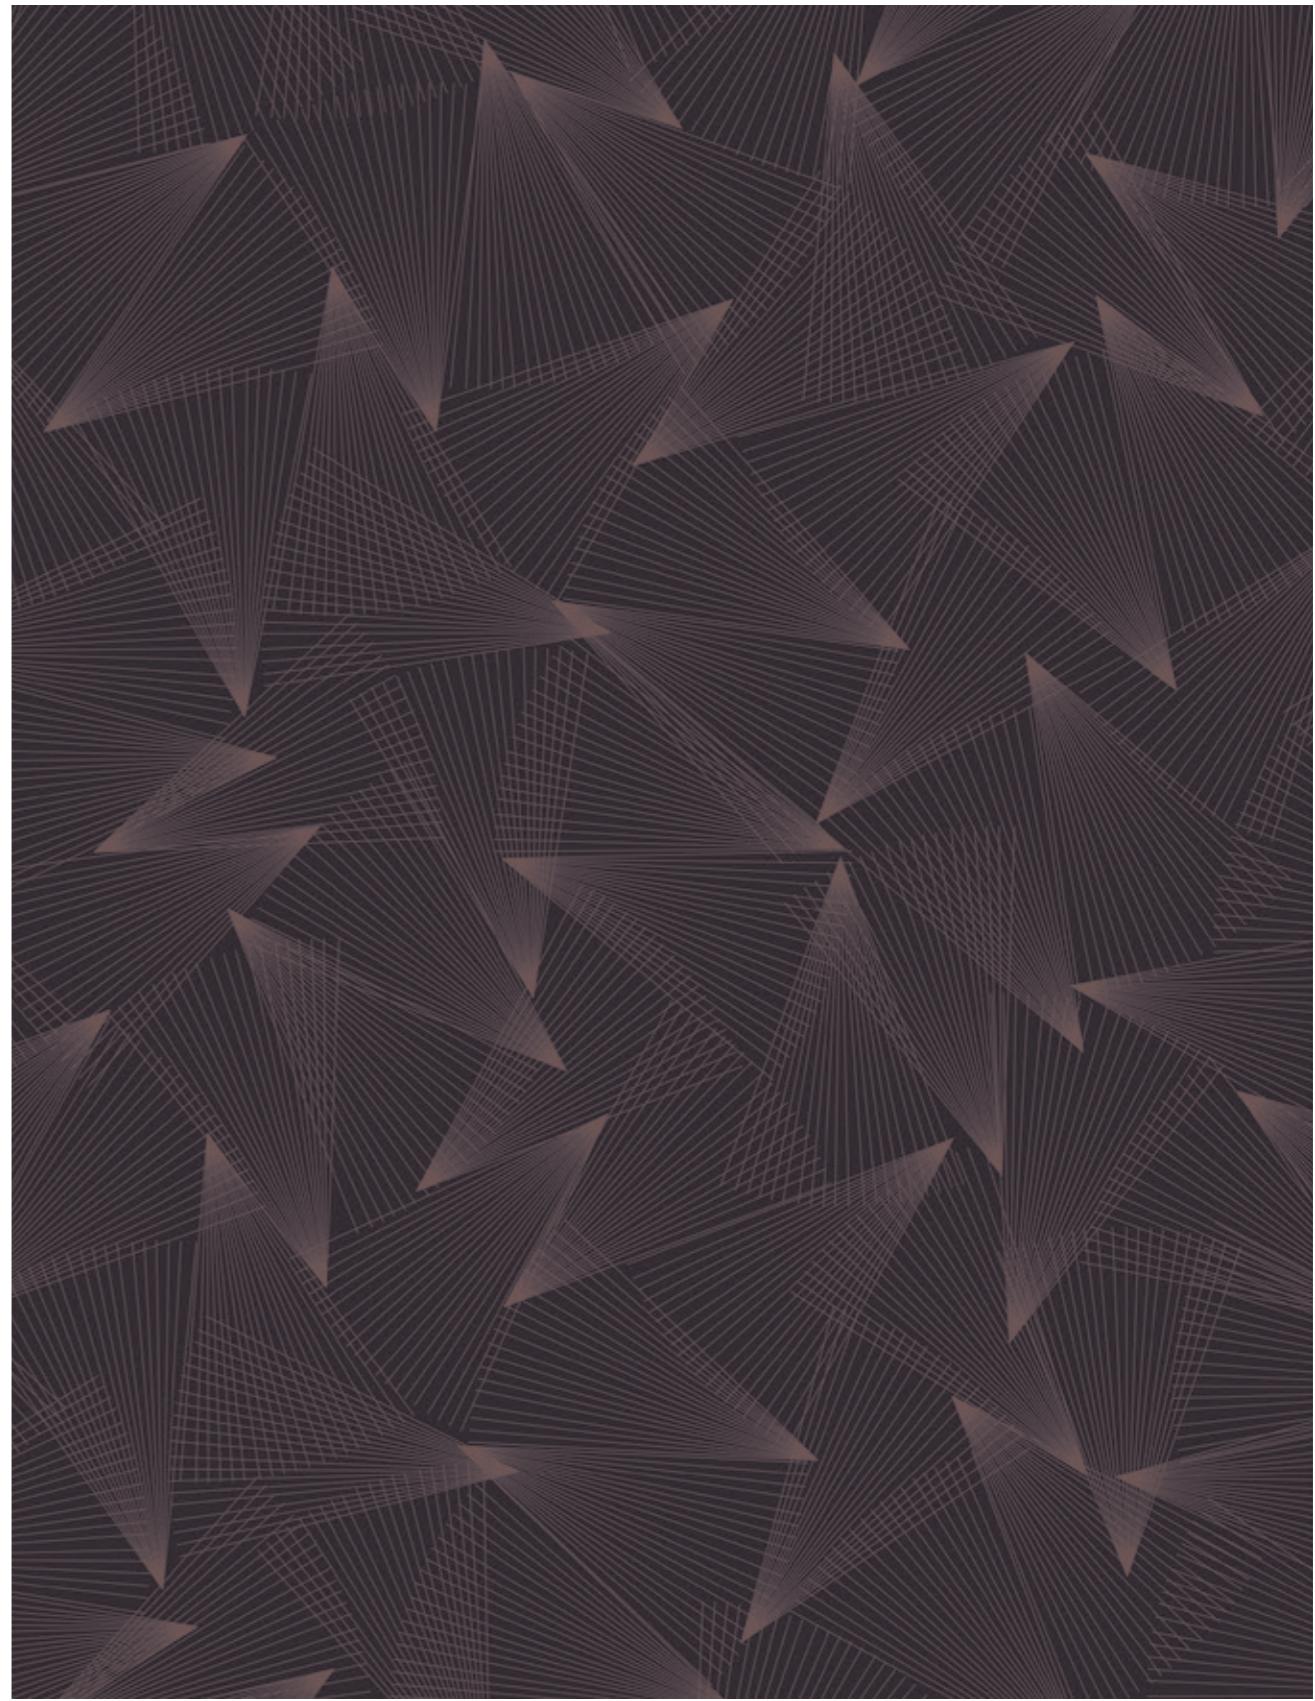

*The pure, linear design is a map of geometries exalting space and interiors, emphasized by staging graphic elements in series.*

THEME #2

## Flora & Fauna

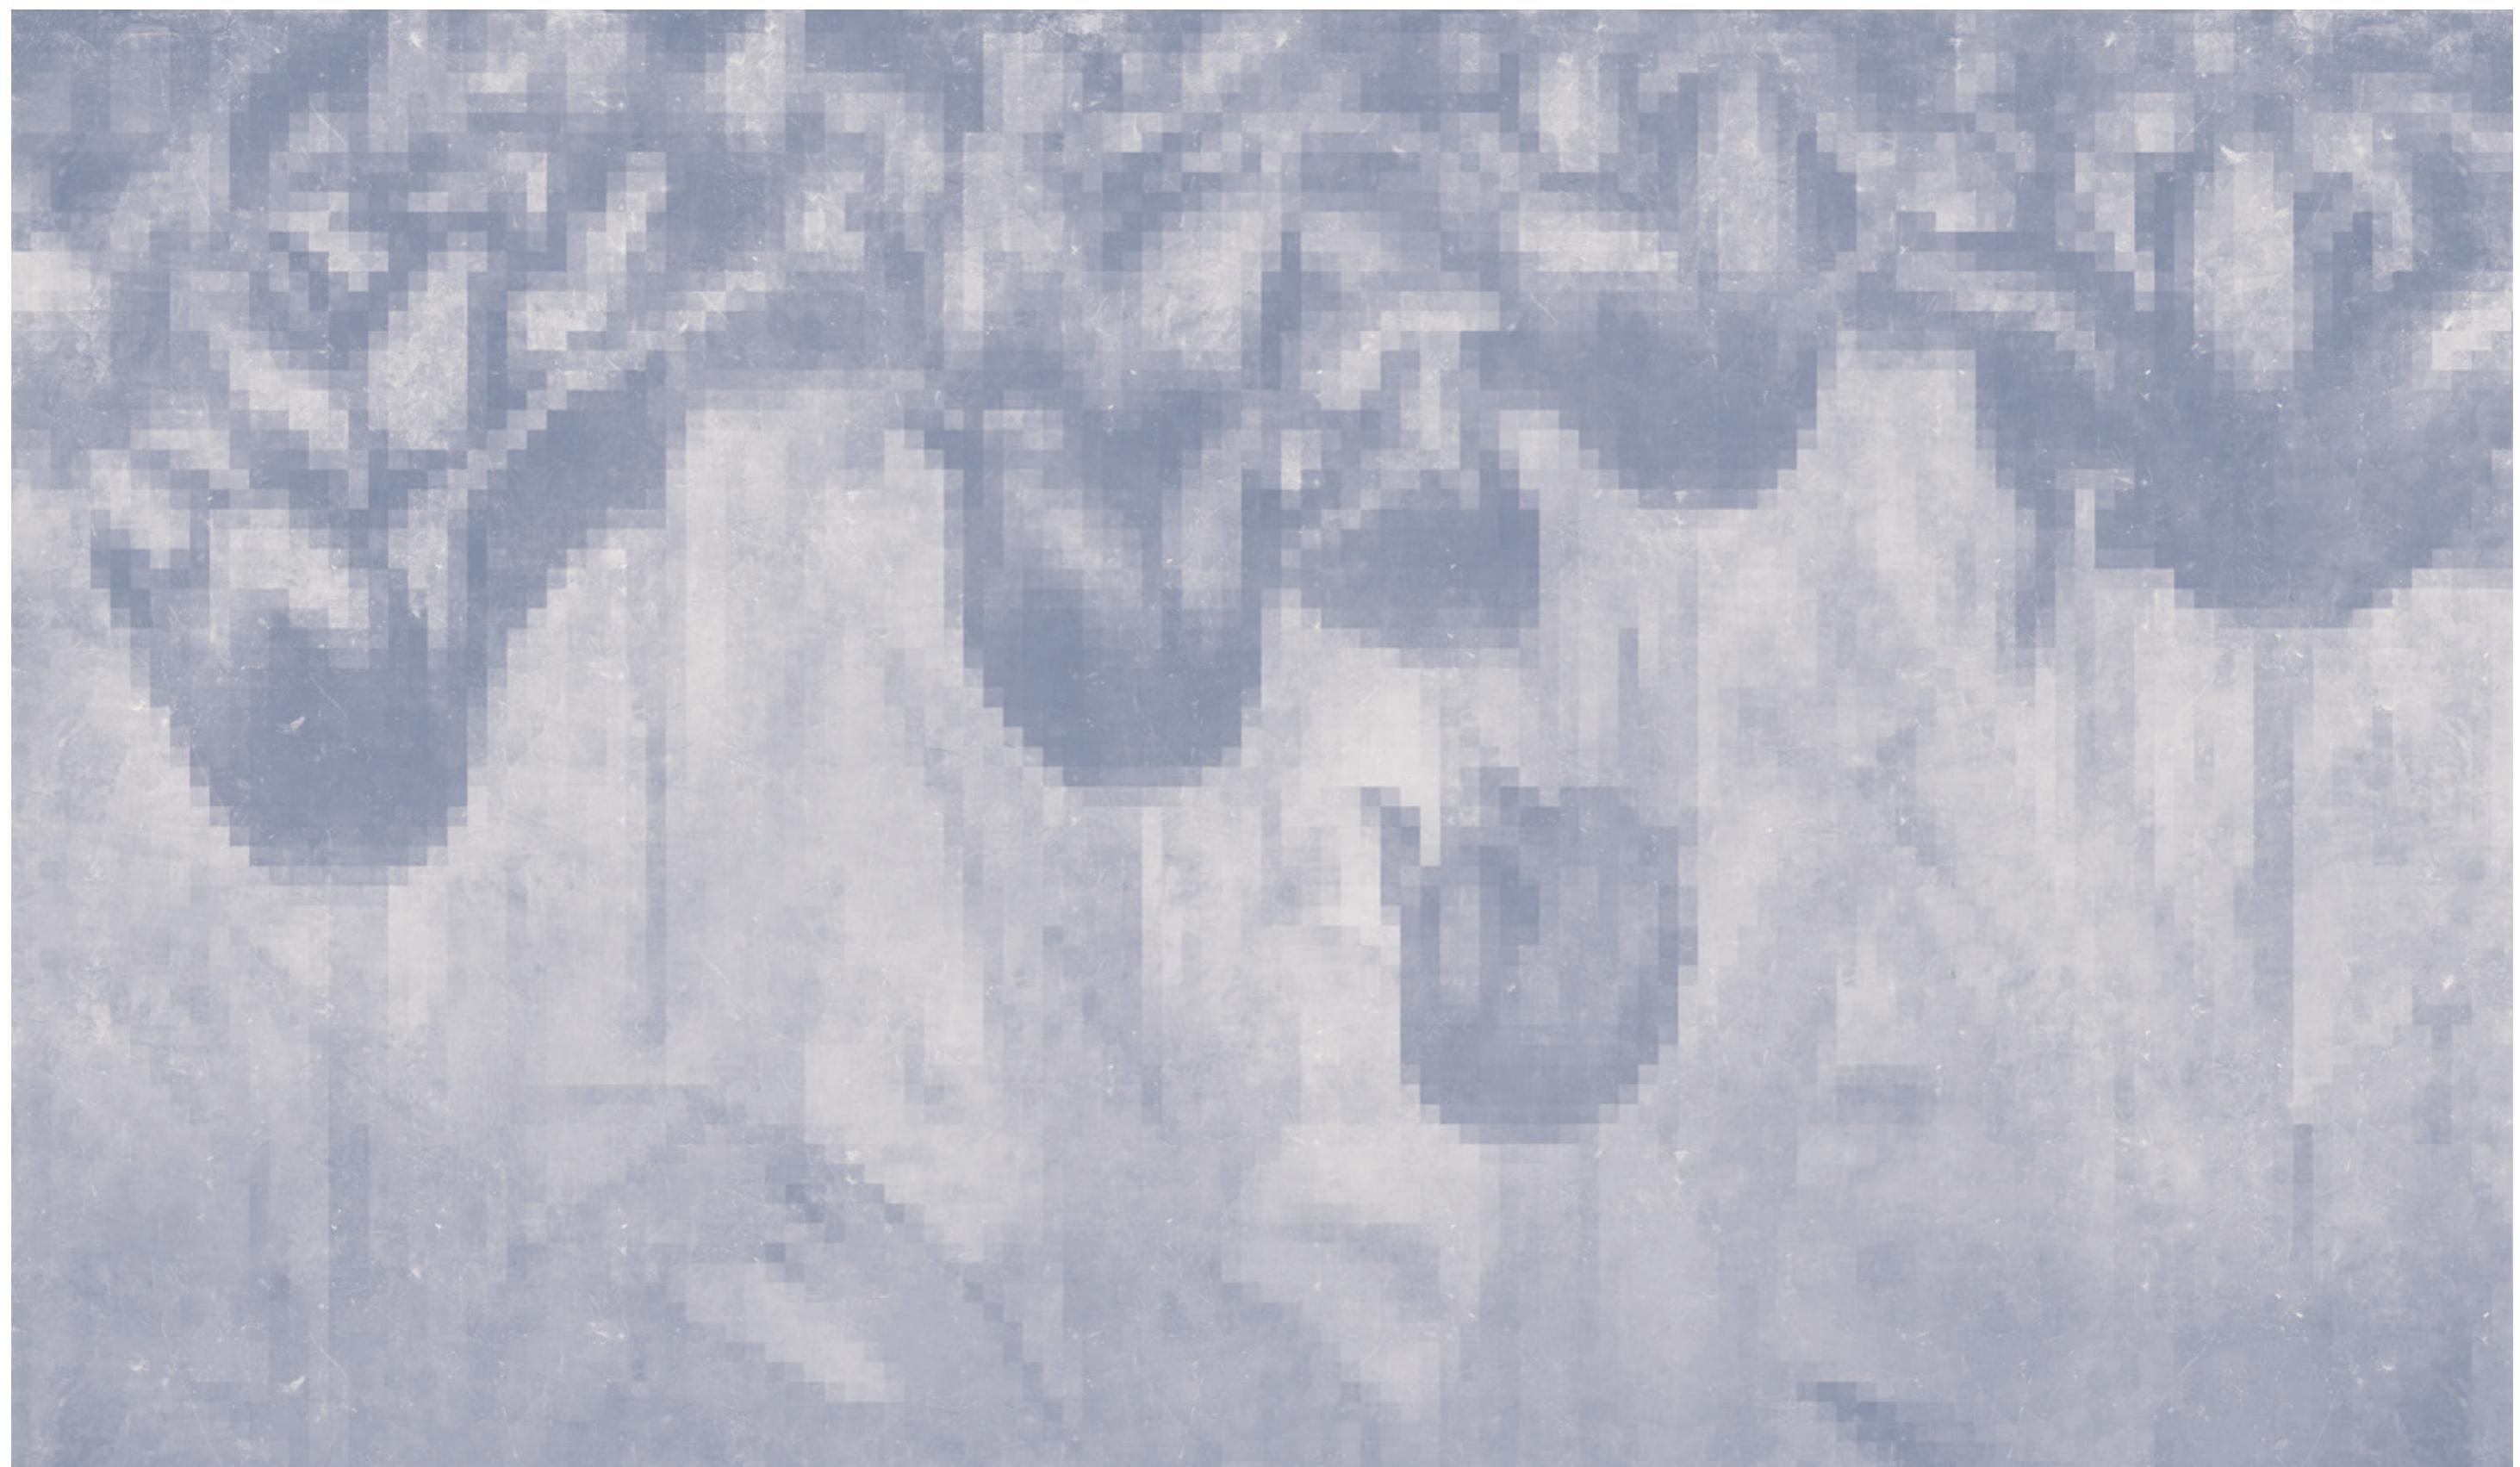

Decise e dinamiche, strutturate su colori forti e immagini iconiche. Ispirate al mondo reale, messo a nudo dal segno grafico vestono le pareti di orizzonti lontani.

Rielaborata per cercarne la struttura e l'anima, riproposta nella chiave quasi lisergica delle foglie che si trasformano in pennellata, ombra o colore la natura si mostra nel suo aspetto grafico più intimo e minimale, oppure opulenta celebra se stessa nella riproposizione di elementi che evocano paesaggi tropicali e ambienti esotici.

*Intense, dynamic, organized in strong colors and iconic images. Inspired by the real world whose essence is unveiled by the graphic line, these creations paint the walls of faraway horizons.*

*Re-elaborated to find its true soul and structure, rendered through the psychedelic effect of the leaves changing in brushstroke, shade or color, nature is here portrayed in its most intimate, minimal graphic aspect, or celebrating its opulence through elements that remind tropical landscapes and exotic places.*

THEME #3

# Materia

Prepotentemente ispirate al reale, volutamente materiche. Texture, geometrie e decori raccontano la rugosità e le linee del legno, le asperità e le stratificazioni della roccia, gli infiniti disegni dei marmi, con arroganti cromie o delicate sfumature.

Segni e intarsi rubati alla natura sono gli assoluti protagonisti di una serie in cui grafico e fotografico si intrecciano creando un forte impatto visivo.

*Strongly inspired by reality, intentionally materic. Texture, geometries and decors tell us about the roughness and lines of wood, the toughness and stratifications of rocks, the unlimited drawings of marble, with arrogant colors or soft nuances.*

*Lines and marquetties stolen from nature play the leading role in this series where graphics and photography mix to create a strong visual impact.*

THEME #4

# Punto, linea e superficie

Celebrazione del tratto grafico nelle sue infinite declinazioni. Linee tracciate a mano, punti, pennellate diventano figure geometriche volutamente imperfette per evocare la mano che artigianalmente le traccia, oppure precise, seriali fanno da griglia a forme volutamente abbozzate.

Dilatate fino a divenire pennellata, corposa come una tempera o evanescente come un acquarello, le linee si evolvono in forme, macchie, bolle, mentre ridotte all'essenziale tornano punto, declinato in un ordinato pattern cromatico.

*Celebrating the graphic line and its unlimited expressions. Hand drawn lines, dots, brushstrokes turning into geometrical figures, deliberately made imperfect to suggest they have been hand drawn, or made accurate, organized to house shapes intentionally pictured as sketches.*

*The lines, expanded to remind of a brushstroke, substantial like tempera or ethereal like watercolor, evolve in shapes, stains, bubbles; whilst reduced to essential, they go back to be dots expressed through chromatic patterns.*

THEME #5

# Evanescenza

Evocative, raffinate, quasi misteriose. Forme geometriche ripetute all'infinito, volti, profili e silhouette solo accennate, un mondo che diventa uno schizzo solo abbozzato, umili azulejos si fanno regola emergono con la forza del tratto grafico da uno sfondo volutamente monocromatico e sfumato.

Arte, poesia, architettura, pittura e musica vivono attraverso i propri simboli, destrutturati e reinventati, in tele tutte da interpretare.

*Evocative, refined, almost mysterious. Geometrical shapes repeated endlessly, faces, profiles and silhouettes barely outlined, universe becoming sketch, humble azulejos making the rules, emerging from a light monochromatic background with the strength of the graphic line.*

*Art, poetry, architecture, painting and music live through their own symbols, destructured and reinvented, on canvas to be interpreted.*

# Informazioni tecniche

## Technical features

Ogni soggetto è realizzabile su supporto vinilico goffrato con base in TNT e direttamente su TNT liscio. Tutte le grafiche sono adattabili per proporzioni e misure alle dimensioni delle pareti.

La stampa del prodotto finito può avere delle differenze cromatiche rispetto al catalogo ed al rendering a monitor. Limonta si riserva di apportare senza preavviso modifiche migliorative ai materiali ed alle finiture rispetto a quanto presentato nel catalogo.

### Installazione

- La parete dev'essere pulita, asciutta e liscia. Togliere parati e colori eventualmente presenti.
- Qual'ora il fondo fosse ruvido dev'essere preventivamente stuccato e lisciato.
- Con un filo a piombo ed una matita segnare una linea dal soffitto al pavimento come guida per il posizionamento del primo telo.
- Suggeriamo di usare la nostra colla LWC POWDER MIX. Incollare direttamente la parete e posizionare i teli seguendo l'ordine di numerazione e le indicazioni dello schema di montaggio incluso nella confezione.
- Curare con attenzione l'accostamento dei teli ed eliminare le eventuali bolle d'aria con una spatola in plastica. Al termine ripassare le giunte con un rullino conico.
- Eventuali fuoriuscite di colla possono essere rimosse con una spugna umida pulita.
- Completare l'installazione rimuovendo le abbondanze di materiale con un cutter.

*Each item can be laid on a Nonwoven fabric-base vinyl support embossed and straight on smooth Nonwoven fabric. All the graphics can be adapted to the size of the walls.*

*The finished product colors may result slightly different compared to the catalogue and the monitor rendering. Limonta reserves the right to make changes to materials and finishings without prior notice, in order to improve the finished product.*

### Installation

- The wall surface must be clean, dry and smooth. Remove wallpapers and colors, if any.
- In case of uneven surface, plaster and make it smooth before laying the product.
- Use a plumb line and a pencil to mark a vertical guide on wall, from ceiling to floor, for first length of paper.
- We recommend the use of our paste LWC POWDER MIX. Lay each paper straight on wall following the numerical order as indicated in the assembly instructions included in the packaging.
- Pay attention when closing the papers; use a plastic spatula to remove air bubbles. Finally, use a seam roller to rub the joints.
- Possible paste leaks can be removed using a clean, slightly wet sponge.
- Complete the installation by using a cutter to remove excess materials.

### Legenda

Nelle pagine a seguire, le tipologie di supporto sono indicate all'interno del codice prodotto dalle lettere **A** e **B** per il supporto Spalmato Vinilico, dalla lettera **Q** per il Tessuto non Tessuto  
es:  
**T18A01B1**  
(Spalmato vinilico)  
**T18A01Q1**  
(Tessuto non tessuto)

### Legend

Here follow the support typologies, indicated by the product code, with letters A and B for Coated vinyl, with letter Q for Nonwoven fabric.  
e.g.:  
**T18A01B1**  
(Coated vinyl)  
**T18A01Q1**  
(Nonwoven fabric)

Designers

**Antonio Aricò**

Laureato al Politecnico di Milano e diplomato presso l'Alta Scuola Politecnica, Antonio fin da giovane coltiva il suo interesse per il design e dedica le sue energie alla ricerca di un linguaggio personale. Frutto del suo lavoro sono alcuni oggetti iconici, come gli annaffiatori Watering Kettle Cans, l'altalena Swing Chair o le caraffe Water Pitcher Block, e collezioni di successo come 'Back Home' e 'Taste of Wood'.

Da qualche anno Antonio collabora in maniera continuativa con aziende quali Seletti e il gruppo Barilla. I suoi lavori sono stati esposti in tutto il mondo, e più recentemente nell'ambito della mostra itinerante "The New Italian Design", che ha toccato, tra le altre, le seguenti città: San Francisco, Santiago del Cile, Città del Capo. Antonio è stato invitato a partecipare a diversi workshop, tra cui: IN-Residence, presso il padiglione Svizzero delle Biennale di Venezia e alla RMIT University in Australia.

**Federica Biasi**

*Graduated from the Polytechnic School of Milan and Alta Scuola Politecnica, Antonio felt from an early age a strong interest and energy in finding his own language and way to define his love for design. He has presented a few iconic objects - the Watering Kettle Cans, the Swing Chair or the Water Pitcher Block and created a few successful collections like 'Back Home' and 'Taste of Wood'.*

*Since few years Antonio is constantly working with clients like Seletti and Barilla Group. His work has already been shown around the world, lately with the exhibition "The New Italian Design" that went around the world: San Francisco, Santiago de Chile, Cape Town and he has been invited for various workshops: in Venice Biennial with IN-Residence at the Swiss Pavilion and in Australia with the RMIT university.*

*Federica Biasi, classe 1989, si è laureata con lode nel 2011 presso l'Istituto Europeo di Design. Dal 2011-2013 lavora con agenzie di design con sedi a Milano. Nel 2014 si trasferisce ad Amsterdam per analizzare e comprendere il design nordico e i trend emergenti, concentrando sull'estetica e la semplicità formale che hanno ispirato il suo stile personale.*

*Attualmente è art director del brand italiano Mingardo, collabora come consulente creativo con aziende di design come Fratelli Guzzini, puntando sulla ricerca e previsione dei trend internazionali: colori, materiali e finiture, con particolare attenzione al know-how di ogni azienda con cui collabora. Progetta inoltre ceramiche da tavola, prodotti tessili e mobili, credendo fortemente nel valore dell'artigianalità.*

*Federica è una designer a 360°, la sua filosofia si basa su un approccio estetico pulito: niente è lasciato al caso, ogni dettaglio ha un obiettivo preciso sia che si tratti di un prodotto o di una direzione artistica.*

**Elena Campa**

Elena Campa è una designer freelance che si occupa principalmente di grafica e stampa artigianale.

L'applicazione del suo lavoro è pluridisciplinare, dall'interior design fino all'editoria, ricercando costantemente un approccio analogico alla ricerca grafica.

Fonda Studio Arturo e Spazio Florida, due progetti legati alle tecniche di stampa sperimentale e si occupa di formazione attraverso numerosi workshop ed eventi e in una scuola di stampa.

*Elena Campa is a freelance designer mainly focused on graphics and artisanal print. Her work has multidisciplinary applications, from interior design to publishing, and it's based on the analogical concept applied to graphics.*

*She is founder of Studio Arturo and Spazio Florida, two projects related to experimental print techniques; she is also responsible for different formation activities, such as workshops and events, and in a school of print.*

**Alessandro Fusco**

Alessandro Fusco, classe 1990, laurea in Edile-Architettura nel 2015. Dopo un master in restauro a Matera, inizia subito a dedicarsi alla libera professione, prima a Bari e poi a Roma. Curioso per natura, si muove fra più campi, partendo dalle discipline dell'architettura, con frequenti incursioni nei campi del design e dell'arte contemporanea, in particolare con fotografia e installazioni. Ha collaborato a diversi progetti artistici ed esposto in mostre personali e collettive. Sue opere sono state selezionate ed incluse in cataloghi e pubblicazioni. Vicino, inoltre, al mondo del teatro contemporaneo, con lavori di scenografia e light design.

L'approccio ai suoi progetti è totale e la contaminazione fra vari settori è evidente: i progetti artistici sono definiti da una attenta progettazione tecnica, mentre quelli di design si riempiono di riferimenti più liberi e giocosi, senza dimenticare i fondamenti organici maturati dall'industriale design del '900, suo grande riferimento.

Alessandro Fusco (1990), graduated in Construction-Architecture in 2015. Right after a PHD in Restoration, he started working as a freelance professional, first in Bari and afterwards in Rome. Curious by nature, he works in different fields, starting with architectural disciplines, often engaging design and contemporary art, in particular photography and installations. He worked for different art projects and his works featured in several personal as well as collective exhibitions. His works have also been included in different catalogues and publications. He's also fond for contemporary theatre, with works of production design and light design.

He has a comprehensive working method, with clear contamination between different fields: his art projects are defined by a careful technical planning, whilst the design works have plenty of playful references, not to mention the 19th century industrial design foundations.

## Myo Creativelab

MYO è un laboratorio creativo fondato nel 2014 da due giovani designer, Alessandra Benigno e Davide Negro. Le loro ricerche individuali, nel campo dell'arte contemporanea e in quello del design della comunicazione, si sovrappongono in MYO per dare vita ad una ricerca che esplora entrambi i luoghi, senza mai tralasciare l'aspetto artigianale di ogni loro progetto.

Nel 2015 espongono al MAXXI, museo nazionale delle arti del XXI secolo di Roma, con il loro progetto Make your own Creative view, tra i progetti vincitori della VI edizione del concorso DAB, Design per artshop e bookshop, promosso dal Ministero dei Beni e delle Attività culturali e del turismo.

## Matteo Stucchi

*MYO is a creative lab founded in 2014 by two young designers, Alessandra Benigno and Davide Negro. Their individual researches, in contemporary art and communication design, overlap each other, giving life to a research that explores both the areas, without never overlooking the artisan aspect in each of their projects.*

*In 2015 they exhibit at MAXXI, National Museum of Arts of XXI century in Rome, with their project Make Your Own creative view, with the winner projects of the VI edition of the DAB (Design for artshop and bookshop) contest, supported by the Ministry of Cultural Heritage and Activities and Tourism.*

La vera mission del suo lavoro è quella di arrivare all'autenticità, sia creando prodotti con carattere individuale che ricercando un nuovo modo di fare industria. I suoi progetti offrono una dolce e generosa presenza, sono forme organiche e geometriche, caratterizzate da uno spirito allegro e colorato.

Dal punto di vista progettuale si sente molto vicino ad un approccio futuristico ed emozionale, forte nel metodo di analisi del progetto l'impronta del maestro Bruno Munari. Massima caratterizzazione dell'analisi per forme e colori che rispecchiano l'obiettivo del prodotto.

*Born in 1992, Matteo Stucchi graduated in Industrial Design and started to produce his own works, creating a collection of pottery vases. His design is unique, easy to recognize from the outstanding balance between rigor and fantasy; he soon started to make beauty and comfort the key words of his works, based on a new concept of living.*

*His true mission is to reach out to authenticity, both by creating products of strong personality and trying to find a new way to create business opportunities. His projects are sweet, generous entities, organic and geometrical shapes characterized by a joyful, colored soul.*

*As for his work planning, he sees himself very close to a futuristic, emotional method, with a strong influence by master Bruno Munari. Great characterization of the analysis of shapes and colors that reflect the aim of the product.*

## VZN studio

Sonia Mion e Nicola Iannibello, entrambi graphic designer, nel 2009 fondano lo studio VZNstudio (VENTIZERONOVE) a Milano.

La loro sede è una ex filanda ristrutturata, un po' studio e un po' luogo d'incontri, e il loro lavoro spazia tra corporate identity, editoria, illustrazione, packaging e branding.

Realizzano dal 2011, il magazine di illustrazione Nurant.

Sonia dal 2006 come consulente per Studio Lissoni Associati / Graph.x since 2006, where she takes care of branding projects for important designer brands.

Nicola ha collaborato con varie agenzie di grafica come Landor, Cb'a, Design Group Italia.

La loro filosofia progettuale è quella di circondarsi di persone dalle professionalità differenti, che rendono il lavoro completo e in continua ricerca.

*Sonia Mion and Nicola Iannibello, both graphic designers, founded VZNstudio (VENTIZERONOVE) in Milan in 2009. Their studio was formerly a textile mill and at the same time is a studio and a meeting place, and their work ranges from corporate identity to publishing, illustration, packaging and branding.*

*In 2011 they started Nurant magazine, dedicated to illustration.*

*Sonia is consultant for Studio Lissoni Associati / Graph.x since 2006, where she takes care of branding projects for important designer brands.*

*Nicola has collaborated with various design agencies such as Landor, CB'a, Design Group Italy.*

*Their design philosophy is to surround themselves with people from different professional backgrounds, that can make their work complete and keep on working on research.*
